INTEGRATIVE BREATHWORK WITH DALE AND NICOLE

Most of us are born with the ability to breathe openly and fully; however, as we go through life's waves, we begin to control and restrict our breathing which has a direct effect on our consciousness and vitality. We invite you to re-establish the ability to breathe deeply, with an open breath leading to a compassionate heart and peaceful mind.

Change your Breath, Change your Life

- **Increase your Energy**
- **Detoxify, Restore, Balance, and Oxygenate cells**
